

General Description

DNA pAL1253

Entire molecule length: 774 bp

Feature Map

Misc. Feature (4 total)

tet operator

Start: 305 End: 323

Original Location Description:
775..793

tet Operator

Start: 326 End: 344

Original Location Description:
796..814

link

Start: 433 End: 438

Original Location Description:
5120..5125

V5 tag

Start: 439 End: 483

Original Location Description:
5126..5170

PolyA Signal (1 total)

CMV IE PolyA

Start: 490 End: 768

Original Location Description:
5255..5455

Promoter Eukaryotic (1 total)

CMV Promotor

Start: 11 End: 427

Original Location Description:
481..897
